Delivery on all Rails within 3 – 5 Working Days**

Product Features

- 440mm High X 600mm Wide
- Output Delta T 50k = 268 watts (911 BTU's)
- Fitted with one Electric Element on Left or Right and filled with heat translucent liquid
- Tapping centres: 570mm
- Wall to front face of rad: 145mm
- Wall to centre inlet / outlet: 70mm

Product Characteristics

- It does not corrode or flake
- It can be used on open or closed systems
- These rails are pressure tested with air to 10 bars under water
- They have two easily accessible bleed valves
- They are fitted with 1/2" BSP sockets
- Each one has long mounts can be supplied to give an additional 40mm clearance from the wall

Please note that this picture is an example. Your rail will not have valves supplied as this is an electric only version.

Model Selection Reckoner

To identify the model with the most suitable heat output for your bathroom (linear measurements in feet)

Step 1: Multiply room length x room width x room height = room volume (cu ft)

Step 2: Multiply room volume as calculated in Step 1 by 5. This figure gives a rule of thumb guide to the heat output (in BTU's) required for the bathroom.

The Characteristics of Stainless Steel Rails

When fitting these rails you will have to use a switched spur, not a plug, as it does not conform with UK regulation, if you are going to be using the rail in the bathroom. A rail is a separate entity to your system, but can be connected to the heating system at a later date by adding a set of valves if needed.

With these rails the best thing to use when requiring control over them is a time switch. If they are thermostatic controlled, they will be on all day and will increase your fuel bill. So it would make more sense to have the rail on in the morning and in the evening when you're using the room.

The electric rails we sell are filled with a special liquid and the rails are distributed to a company (In Essex) for this to be completed. We no longer fill the rails with oil as the EU has set new legislation on the dumping of oil. We do not install the elements as we have had too many items being damaged by the courier companies.

Please note all instructions illustrating how to screw the element in are supplied. The element may be installed either side to suit your needs according to which side the power source originates.

Delivery Terms

Prices do Inc VAT. Delivery will be normally 3 – 7 working days. We will try our best to get this rail to you ASAP; but as we rely on couriers, this is not always possible as they can take 2 days, even though our items by next day & is £15.

If you need any more questions answered then please do not hesitate to email us.

PROBLEMS ORDERING ON LINE:-

Any ordering problems please contact support at sales@tradeplumbing.co.uk

Normally most problems when ordering are Ad-aware popup blockers. To solve this go to tools and internet options clear the cookies & history as this solves 90% of order problems.

Some times you will have to disable your popup blocker or allow pop-ups from our site. If you do have any problems or find faults on our website please email sales@tradeplumbing.co.uk .

WHY NO TELEPHONE NUMBERS FOR ORDERING

If you would like to contact us directly we do offer an e-mail/phone back service but this is for limited usage as we prioritise emails. All you have to do is email us your information and any questions you need answering. We will either reply by phone/email with the answer to any questions.

We do this to cut costs of using a call centre thus competitive prices in reflection.

NEED HELP

We have added a mobile phone number to help you if in you need to consult someone in a difficult situation. We only offer these services as the last resort for you as the customer.

We do not have a phone system as this will increase the prices of our products. As a company that prides itself on customer service and competitive pricing we give you - the customer the best price in the UK and to do this we have to cut costs.

**IF YOU DO NEED TO CONTACT US BY PHONE PLEASE CALL
(BETWEEN THE HOURS OF 9AM-5PM ONLY ON 0870 803 4288.
ONE OF THE TEAM WILL TRY TO HELP WITH YOUR PROBLEM**
